

List of products of harmonised standards

Code 03: MEMBRANES, INCLUDING LIQUID APPLIED AND KITS (FOR WATER AND/OR WATER VAPOUR CONTROL)

Standard	Name	Application	Product-type	Intended use	System of attestation	Mandate
EN 13707	Flexible sheets for waterproofing — Reinforced bitumen sheets for roof waterproofing — Definitions and characteristics	Flexible reinforced bitumen sheets for roof waterproofing	Bitumen sheets	For uses subject to reaction to fire regulations	1, 3, 4	M/102
				For uses subject to external fire performance regulations	3, 4	
				Roof sheets in buildings	2+	
EN 13859-1	Flexible sheets for waterproofing — Definitions and characteristics of underlays — Part 1: Underlays for discontinuous roofing	Flexible sheets for underlays which are to be used under roof coverings of discontinuous roofs	Roof underlays	In buildings	3	M/102
				For uses subject to reaction to fire regulations	1, 3, 4	
EN 13859-2	Flexible sheets for waterproofing — Definitions and characteristics of underlays — Part 2: Underlays for walls	Flexible sheets for underlays for walls which are to be used in walls behind outside wall coverings	Wall underlays	In buildings	3	M/102
				For uses subject to reaction to fire regulations	1, 3, 4	
EN 13956	Flexible sheets for waterproofing — Plastic and rubber sheets for roof waterproofing — Definitions and characteristics	Plastic and rubber sheets including sheets made out of their blends and alloys for which the intended use in roof waterproofing	Plastic and rubber sheets	Roof waterproofing subject to reaction to fire regulations	1, 3, 4	M/102
				Roof waterproofing subject to external fire performance	3, 4	
				Roof waterproofing	2+	
EN 13967	Flexible sheets for waterproofing — Plastic and rubber damp proof sheets including plastic and rubber basement tanking sheet — Definitions and characteristics	Flexible plastic and rubber sheets which are intended to be used as damp proofing for buildings, including basement tanking	Plastic and rubber sheets	Damp proofing in buildings, including basement tanking subject to reaction to fire	1, 3, 4	M/102
				Damp proofing in buildings, including basement tanking	2+	
EN 13969	Flexible sheets for waterproofing — Bitumen damp proof sheets including bitumen basement tanking sheets — Definitions and characteristics	Flexible reinforced bitumen sheets for which the intended use is as damp proofing for buildings, including basement tanking	Reinforced bitumen sheets	Damp proofing for buildings, including basement tanking subject to reaction to fire	1, 3, 4	M/102
				Damp proofing for buildings, including basement tanking	2+	
EN 13970	Flexible sheets for waterproofing — Bitumen water vapour control layers — Definitions and characteristics	Flexible reinforced bitumen sheets for which the intended use is as water vapour control layers for buildings	Water vapour control layers	Water vapour control layers	3	M/102
				For uses subject to reaction to fire regulations	1, 3, 4	
EN 13984	Flexible sheets for waterproofing — Plastic and rubber vapour control layers — Definitions and characteristics	Flexible sheets of plastic or rubber intended for uses as water vapour control layers for buildings and applies to both reinforced and unreinforced products	Water vapour control layers	In buildings	3	M/102
				For uses subject to reaction to fire regulations	1, 3, 4	

EN 14891	Liquid-applied water impermeable products for use beneath ceramic tiling bonded with adhesives — Requirements, test methods, evaluation of conformity, classification and designation	Liquid-applied water impermeable products based on polymer modified cementitious mortars, dispersions and reaction resin coatings, used beneath ceramic tiling, for external tile installations on walls and floors and in swimming pools	Damp proof courses	In buildings	3	M/102
EN 14909	Flexible sheets for waterproofing — Plastic and rubber damp proof courses — Definitions and characteristics	Flexible sheets of plastic and rubber intended for use as damp proof courses or buildings	Plastic and rubber sheets	Damp proof courses in buildings subject to reaction to fire regulations	1, 3, 4	M/102
				Damp proof courses in buildings	3	
EN 14967	Flexible sheets for waterproofing — Bitumendamp proof courses — Definitions and characteristics	Flexible sheets of bitumen intended for use as damp proof courses or buildings	Damp proof courses	Damp proof course subject to reaction to fire regulations	1, 3, 4	M/102
				Damp proof course	3	
EN 15814	Polymer modified bituminous thick coatings for waterproofing — Definitions and requirements	Polymer modified bituminous thick coatings used for the waterproofing of below ground structures. It applies to both one-component and two-component products.	Damp proof courses	In buildings	3	M/102
				For uses subject to reaction to fire regulations	1, 3, 4
